

The EcoBoiler Suite of Wood Pellet Central Heating Equipment qualifies for a 30% Grant in the State of New Hampshire.

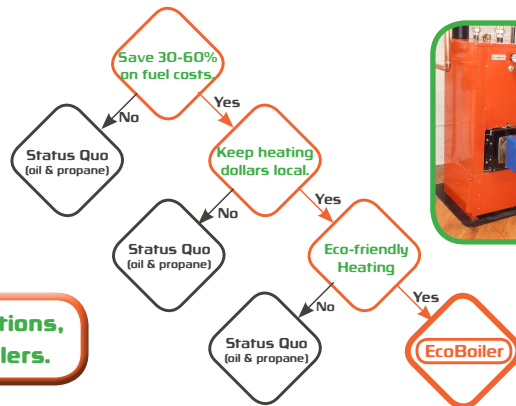

This grant gives you a great opportunity to switch to wood pellet central heating with the convenience of bulk pellet fuel delivery, at a price that gives an excellent payback (we estimate 4-6 years), and collective fuel cost savings measured in tens of thousands of dollars.

About EcoHeat Solutions: EcoHeat Solutions is the source for American-made EcoBoiler pellet boilers, and other major components you need to transition to economical and sustainable wood pellet central heating.

We work with installers near you, so you get good local service.

About the grant: The State of New Hampshire is offering grants of 30%, up to \$6,000 for Wood Pellet Central Heating equipment and installation when equipped with bulk storage suitable for bulk wood pellet delivery. This generous grant is being offered by the Sustainable Energy Division of the NH Public Utilities Commission, and may be discontinued at any time.

Decide for yourself if wood pellet central heating might be right for you.
